

GOR GRIGORYAN

Full Stack JavaScript Developer

Yerevan, Armenia | +374 55 995 955 | gorgrigoryan.dev@gmail.com
github.com/gorg16 | Telegram: @grigoryan_gor | <https://gor-grigoryan.vercel.app>

PROFESSIONAL SUMMARY

Full Stack JavaScript Developer with 8+ years of hands-on experience architecting and delivering scalable web and mobile applications. Deep expertise in React, Next.js, Angular, Node.js, and NestJS with production deployments across fintech, healthcare, e-commerce, AI-powered platforms, and blockchain/Web3. Proven ability to take projects from concept through MVP to production scale, with a strong emphasis on clean architecture, performance optimization, and maintainable code. Successfully delivered 30+ commercial projects for clients ranging from startups to established enterprises.

TECHNICAL SKILLS

Frontend Development React · Next.js · Angular · Ionic · HTML5 · CSS3 · Bootstrap · Sass

Backend Development Node.js · NestJS · Express.js · REST API · GraphQL

Databases MySQL · PostgreSQL · MongoDB · Redis · TypeORM

AI & Web3 AI-Powered Apps · Web3 · Blockchain · Smart Contracts · OpenAI

DevOps & Tools Git · Docker · CI/CD · Vercel · AWS · Linux

Languages TypeScript · JavaScript · Python · SQL · Solidity

PROFESSIONAL EXPERIENCE

Full-Stack Developer (AI & Web3)

labsis SARL - 2023 - present

- Architect and develop AI-integrated web applications using React, Next.js, and Node.js with OpenAI APIs, delivering intelligent user experiences for enterprise clients
- Build decentralized applications (dApps) with Solidity smart contracts, Web3.js integration, and secure blockchain transaction handling
- Design and implement full-stack solutions that combine blockchain infrastructure with AI-powered features, serving as technical lead on key projects
- Manage PostgreSQL and MongoDB databases, designing efficient schemas and query optimization for data-intensive applications

Front-End Developer

REDOPS - 2022 - 2023

- Built and optimized large-scale frontend applications using Angular and React, serving thousands of daily active users
- Implemented responsive, high-performance UIs adhering to design systems and WCAG accessibility standards
- Integrated RESTful and GraphQL APIs with robust error handling, caching strategies, and optimistic UI updates
- Improved Core Web Vitals scores by 40%+ through code splitting, lazy loading, and rendering optimizations

Angular Developer

ADVA - 2021 - 2022

- Developed interactive financial web applications using Angular with complex data visualization dashboards
- Built a reusable component library that reduced feature development time by 30% across the engineering team
- Optimized rendering performance for data-heavy views, reducing load times and improving overall user experience

React/React Native Developer

MINOVA LLC - 2019 - 2021

- Developed cross-platform mobile applications with React Native deployed to both iOS and Android app stores
- Built responsive web applications using React.js with Redux state management and middleware architecture
- Collaborated with designers and product managers to translate Figma designs into pixel-perfect, production-ready interfaces
- Established component reusability standards and contributed to shared UI library used across multiple projects

Angular/Ionic Developer

CODEEP LLC - 2017 - 2018

- Built cross-platform mobile and web applications using Angular and Ionic framework for enterprise clients• Developed with TypeScript, RxJS, and component-based architecture following Angular best practices
- Delivered client-facing applications with responsive design, offline support, and smooth native-like interactions

SELECTED PROJECTS

- **HCW@Home** - HIPAA-aware telehealth application enabling remote healthcare consultations, appointment scheduling, and patient record management
- **Sesame Wallet** - Multi-chain cryptocurrency wallet with secure key management, transaction history, and portfolio tracking
- **PASCO CareMatch** - Healthcare matching platform connecting patients with specialized care providers using intelligent recommendation algorithms
- **JhAS / Job Match** - AI-powered job matching platforms with resume parsing, skill extraction, and intelligent candidate-role pairing
- **Gekkard / Black Cat Card** - Fintech card management applications with payment processing, KYC verification, and transaction monitoring
- **SafOn** - Full-featured e-commerce platform with product catalog, cart management, checkout flow, and payment gateway integration
- **Airdrop / Ftftx** - Blockchain platforms for token distribution (airdrops) and decentralized trading with smart contract execution
- **Freeports Trading Platform** - Full-stack trading platform with real-time market data, secure transaction processing, and complex financial workflow automation

Other notable projects: *Truckin Digital, keepwith, MAMELE, Best Coach Ever, inKin, papaya.eu, ViPsy, equility, PEOPLE'S RUNWAY, VetPet, Pluto, Offload, Premier Beverages, Girl Scouts Nation's Capital, Sugar Bowl, Live Performance, Along The Waves, ProofUploader, ADVA*

Industries served: Fintech · Healthcare · E-Commerce · Blockchain / Web3 · AI / ML · Social Platforms · Trading · Logistics

EDUCATION

Bachelor of Science in Computer Science & Applied Mathematics

Yerevan State University - 2015 – 2019

Faculty of Informatics and Applied Mathematics. Core studies in algorithms, data structures, artificial intelligence, cybersecurity, database systems, and software engineering.

LANGUAGES

Armenian - Native

English - Professional working proficiency

Russian - Professional working proficiency
